A thoft by a count is an instance in which he did not pay trustee in whom extreme confidence is placed, at all, but kept the whole \$143. The first who has property entirely in his power, with count is an instance in which a cheque was few checks, his offence is one in which heavy punishment might be inflicted. Mr. Francis-I quite understand your Lordthe hope that at some time, in the belief and ship. I put it to your Lordship this waybeoretically, the prisoner had no responsibility for money. I am putting it to your Lordship that he was placed in a position only in which large sums of money had to pass through his hands, and yet his auperiors are supposed to be entirely ignorant of that, and no checksrecautions-were adopted, and he was left exosed to the temptation; and I submit it is constantly urged as a reason for ameliorating sentence, for consideration by the Judge or the Court, when a person is abarged with theft or largeny, that the person so charged has been exposed to temptation by his employers and put in a position and given opportuities which he was supposed not to possess and to which he ought not to be exposed; and it is with reference to that consideration that I considered it fair in this case to call your Lordship to consider these points and on that alone. I ask your Lordship's iltention to his position; his thirty-flyn years' service, his utterly insignificant salary. the entire absence of all probability of promotion or amendment in his position, to the fact '--His Lordship-What do you say his salar,

And here, my Lord, I submit is one of the reasons for entirely leaving out of consideration, so far agathe expresso of your

An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical service this Work stands unrivalled. All the new. words which the Chinese have of latey ears been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is NAGASAKI, KOBE, YOKOHAMA, fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the secents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and dispensing with those vast margins

and vacant spaces which have heretofore characterized Chinese publications. To illustrate the vast scope of the work the lines of Steamers, and to the principal cities of following facts are submitted for consideration: - the United States or Canada.
